-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**FINAL DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5,7-14,19,25 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by **Abe** (US 5,555,294)

As to claims 5,9,11-12,19,25, **Abe** teaches a communication apparatus (Figure 2) comprising:

a setting unit (Figure 4) for setting configured to set a communication scheme in which a user determines whether or not a normal mode (bulk communication) is granted in a sending communication and a receiving communication independently (Figure 4, label S44);

a communication unit configured to conduct the normal mode (bulk communication) and a special purpose mode (non-bulk communication) with a partner via a plurality of communication channels (Figure 4); and

a control unit configured to control the number of communication channels in the sending communication and the receiving communication separately in accordance with the communication scheme set by said setting unit enabling the user to control the bulk communication in the sending communication and the receiving communication independently (Col. 5, lines 40-44).

Art Unit: 2645

As to Claims 7-8,13, **Abe** teaches the apparatus according to Claim 5, wherein said communication unit can communicate with a plurality of communication partners, and said setting unit can set the number of channels used when a communication with another communication partner is to be started while communicating using the communication channels, the number of which is controlled by said control unit (Figures 5 and 6 and Col. 6, lines 33-38).

As to Claims 10,14, **Abe** teaches the apparatus according to claim 5, wherein said communication unit can communicate using a plurality of schemes, and said setting unit can set whether or not a communication via the plurality of communication channels is granted in each of the plurality of communication schemes (Col. 6, lines 33-38).

### ***Response to Arguments***

3. Applicant's arguments filed in the 7/5/05 Remarks have been fully considered but they are not persuasive because of the following:

**Abe** teaches a normal mode where there is no idle channel and which is equivalent to the claimed and disclosed bulk communication (Col. 5, lines 40-44).

The arguments with respect to **Brakefield** were persuasive. Those rejections were withdrawn.

Examiner respectfully invites Applicant to contact Examiner to discuss possible amendments for overcoming the prior art of record.

*Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

**Shimada et al.** (US 5,581,560) teaches sharing a telephone line for voice and data communications.

**Ogasawara** (US 4,888,766) teaches a plurality of ISDN terminals sharing a communication line.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any response to this final action should be mailed to:
